

## Pellowah Healing Technique©

The name Pellowah is an Angelic word for “Radical Shift in Consciousness”.

Pellowah Healing Technique is a very powerful energy healing that connects all 12 strands of DNA. It unblocks and realigns the meridians within the body and produces a stronger connection to the Divine and a greater sense of wellbeing.

As the name suggests, it also results in a ‘radical shift in consciousness’. The growth and change brought about by Pellowah help a person to build on their old framework without trauma. It is not cathartic. Pellowah builds on the positives.

People are often drawn to Pellowah when there are changes happening in their life, they are at a crossroad, or both.

Pellowah expands the consciousness, helping you to become more objective.

Through this form of healing you will become less involved in other peoples lives; you will have a new perspective, free to make better choices.

The Pellowah healing treatment takes 45 minutes to One hour. You are fully clothed and it is a ‘no touch technique’, meaning no hands on.

You will come away from a Pellowah healing with answers or with a very deep feeling of relaxation.

Pellowah provides a feeling of wellbeing that seems to last and in fact will get stronger as time goes by. This is because the healing happens from inside out.

I perform Pellowah Healing Technique at my rooms in Hawthorn East by appointment.

I also teach Pellowah Healing Technique© Levels 1 & 2
